

## *Always ready to serve*

Regardless of when and where a death occurs, a family member should call the Cremation Center as soon as possible. We are available 24/7.

You may complete arrangements online or we will set a convenient appointment time for you to come to the Cremation Center to complete arrangements with the assistance of a licensed funeral director.

Prior to your appointment we will inform you of what is necessary to bring with you at the arrangement conference.

## *Pre-arrangement available*

Pre-arranging and pre-funding is available. Kansas law requires all funds be placed into a life insurance policy or a trust account of a federally insured bank. Pre-arranging relieves your survivors of this burden in a time of grief.

Ask about Return Assured™ that guarantees complete cost of transportation from anywhere in the world.

It protects your pre-funded plan if you are more than 100 miles away. Perfect for people who travel.

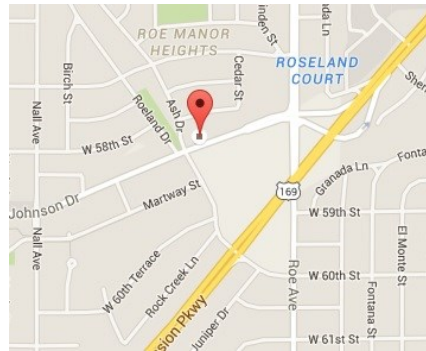

The Cremation Center of Kansas City is *not* a cremation “society.”

There is no membership fee. Pre-arrangements and pre-payment are not required.

## *Trust, Value, and Compassion*

The Cremation Center of Kansas City is a local, family-owned and operated provider of cremation services. Operating since 1979, we were the first crematory in Johnson County, Kansas, and one of the first in the Kansas City metropolitan area.

The Cremation Center and its funeral directors and crematory staff are licensed by the Kansas State Board of Mortuary Arts.

## ***A Premier Cremation Provider***

We are a family-owned and operated cremation service. By having no stockholders or board of directors creates flexibility to meet families' needs and keeps costs low.

Our online arrangement option at [CremationCenterKC.com](http://CremationCenterKC.com), permits making complete cremation arrangements in the comfort of your home. We are experienced cremation specialists. All area funeral homes advertise cremation services but most subcontract this important service to distant, multiple-user, offsite industrial crematories.

The Cremation Center's phones are answered 24/7. A licensed funeral director is always available and ready to assist and serve your needs.

Witnessing cremation by family members is offered and encouraged.

***We offer  
urns, urn  
vaults, and  
keepsakes at  
affordable  
prices***
